

Manual for Chalets & Caviar's website

Accessing the administrative area

Go to <https://chaletsandcaviar.idnet.dk/wp-admin> in your browser and login using your username or e-mail address and password.

Creating a listing

At any time, you may click **Save Draft** to save the current progress. It is safe to close the browser after saving a draft – it will be available for continued editing when logging back in later.

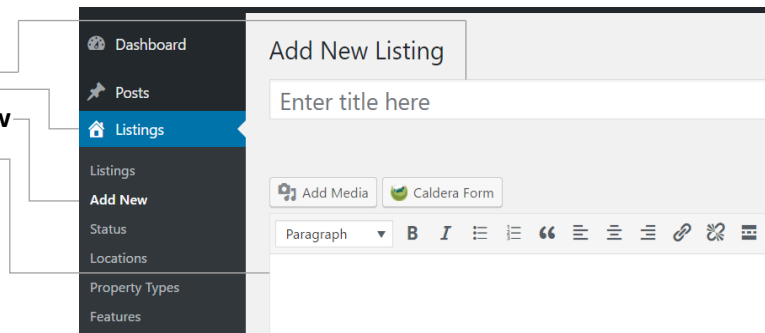

Buttons for 'Save Draft' and 'Preview' under a 'Publish' header.

You may also click **Preview** to preview the listing before publishing it.

1. Start by adding a New Listing

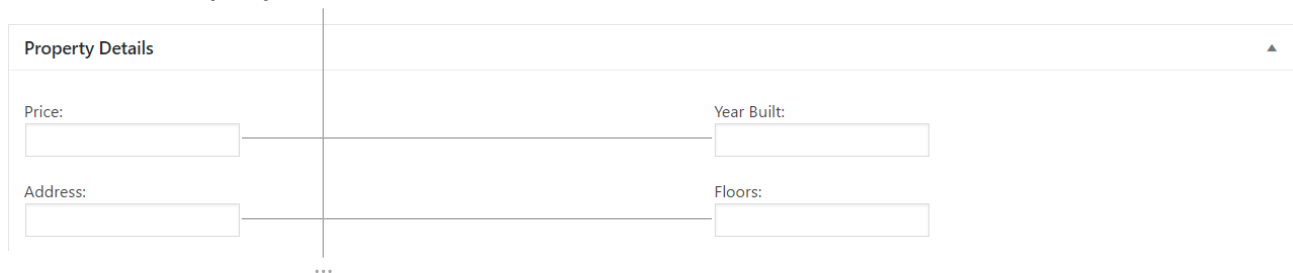

1. Click **Listings** and select **Add New**
2. Enter a **title** and a **description**

WordPress 'Add New Listing' form. The left sidebar shows 'Listings' selected with 'Add New' highlighted. The main form has a title field 'Enter title here' and a description field with a rich text editor toolbar.

2. Property Details

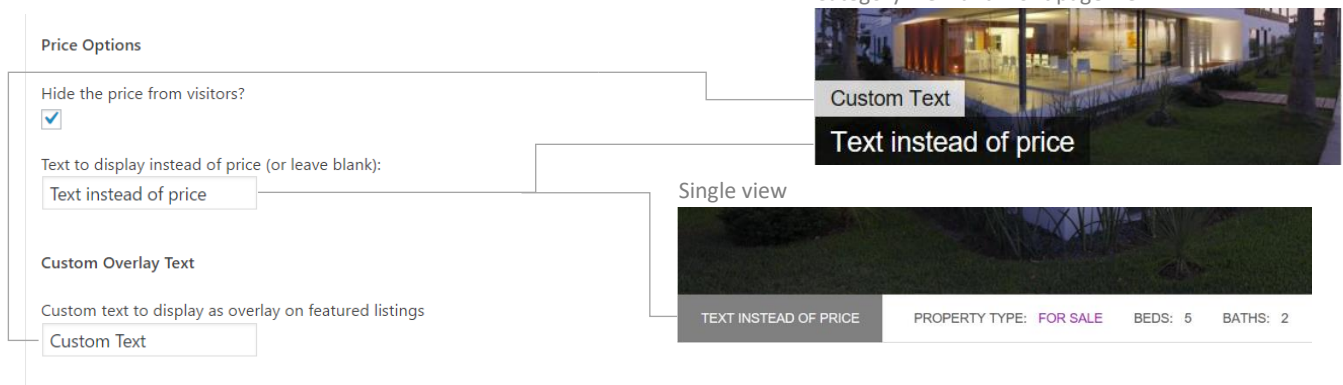

Enter known **Property Details**

'Property Details' form with input fields for Price, Year Built, Address, and Floors. A vertical line separates the left and right columns of fields.

3. Price Options

Choose whether to display the price by selecting/deselecting the **Hide the price from visitors?** checkbox. If the price is hidden then you may display a message instead of the price by entering this into the **Text to display instead of price...** field. Text entered in the field **Custom text to display as overlay...** will be displayed only on archive pages and the front page.

'Price Options' form with a checkbox 'Hide the price from visitors?' (checked), a text field 'Text instead of price', and a text field 'Custom text to display as overlay on featured listings'. To the right are two preview images: 'Category view and front page view' showing 'Custom Text' and 'Text instead of price' over a property image, and 'Single view' showing 'TEXT INSTEAD OF PRICE' and property details.

4. Photo Gallery

1. Click **Add Media** in the **Photo Gallery** section to open the Media browser.

Photo Gallery (use Add Media button to insert Gallery):

Visual Text

2. Select **Create Gallery** and either choose photos available in the Media Library or select **Upload Files** and click **Select Files** to upload new ones.

Insert Media

- Create Gallery**
- Create Audio Playlist
- Create Video Playlist
- Featured Image

Maximum upload file size: 256 MB.

3. Click **Create Gallery**
4. Select the following options and click **Insert Gallery**

CREATE A NEW GALLERY

Link To **Media File**

Columns **4**

Random Order ☐

Size **Square**

Pop-up Size **Large**

Display **Grid**

Insert gallery

5. Map Options

Insert **Latitude** and **Longitude** to display a Google map on the listing page.

Map Options

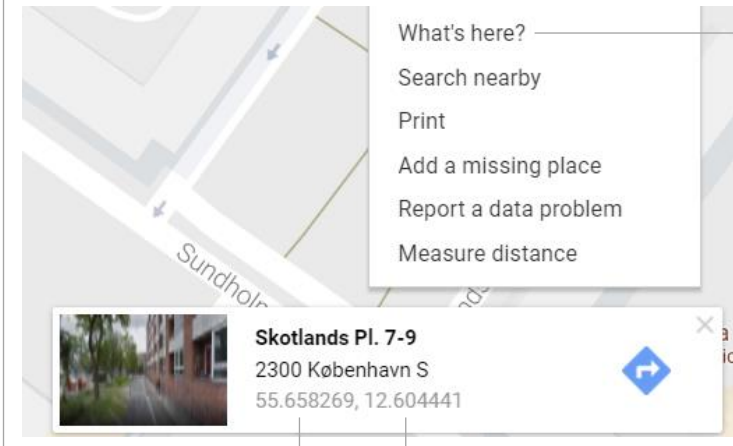

Automatically insert map based on latitude/longitude? Will be overridden if a shortcode is entered below.

☒ Yes ☐ No

Latitude:

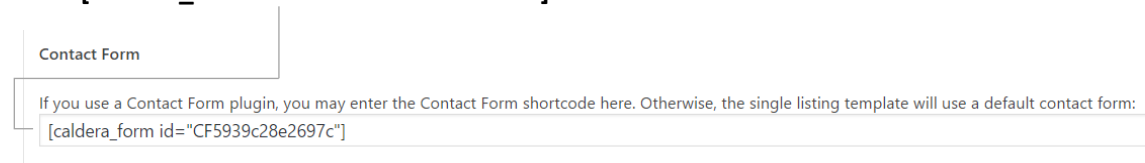

Longitude:

Latitude and longitude can be found by right clicking an address in Google Maps and selecting **What's here**.

6. Contact Form

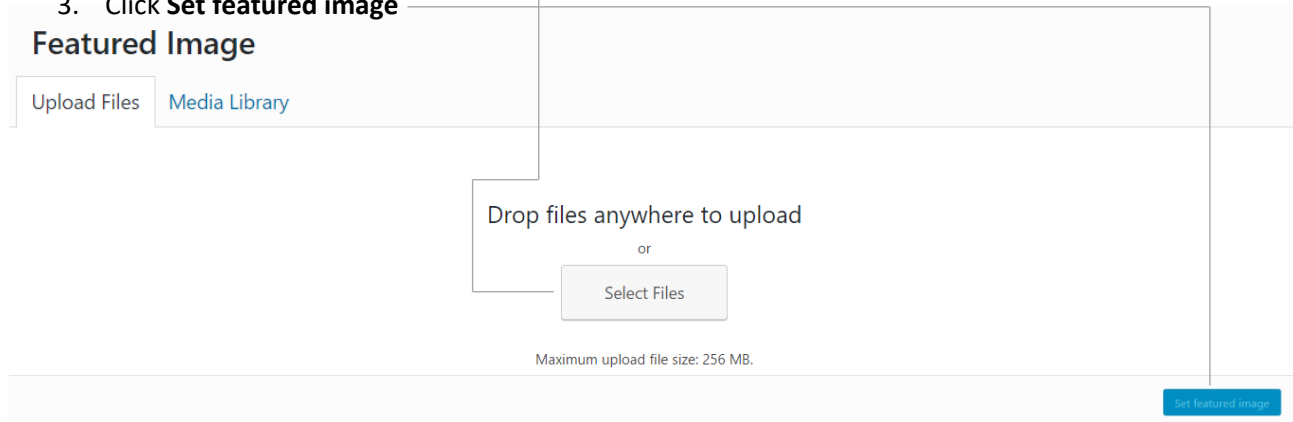

Insert the following value into the Contact Form field to display a contact form that matches the rest of the site: `[caldera_form id="CF5939c28e2697c"]`

7. Featured Image

Add a featured image (used as thumbnail and main image for listings).

1. Click **Set featured image** to open the Media Library
2. Select an existing image or click **Select Files** to upload a new
3. Click **Set featured image**

8. Property Type

Select a **Property Type**

9. Publish Listing

Click Publish to bring the new listing online

Editing an existing listing

Editing a listing is very much like creating a listing. Therefore, after selecting a listing as shown below, you can follow the section for Creating a listing which starts at page 1.

Selecting the listing to edit

Click **Listings** and then click the **Listing Title** of the listing that you would like to edit.

The screenshot shows the WordPress Listings management interface. The left sidebar contains a menu with 'Listings' selected. The main area displays a table of listings. The first listing is titled 'Large Garden Area' and the second is 'Great Scott Building'. Both listings show details like Price, Address, City, County, State, Country, ZIP, and Open House Time & Date. The status for both is 'For Rent'.

Removing a listing

To remove a listing from the page you may either select **Move to Trash** to delete the listing (can be restored if needed) or you may set the **Status** to **Draft** which will retain the listing but not display it on the page.

The screenshot shows the 'Publish' modal in the WordPress Listings management interface. The modal contains the following information:

- Status: Draft
- Visibility: Public
- Published on: Jun 8, 2017 @ 20:57
- Buttons: [Move to Trash](#), [Update](#)
